SWEDISH

Course Description

Primary Care, Family Practice, and other physicians play a central role in the health care of persons with Developmental Disabilities (DD), but may feel inadequately trained or prepared for this role. This conference is designed to provide physicians and allied health professionals with up-to-date information concerning the complex medical needs of persons with DD. Participants will develop the skills needed to effectively assess and treat patients with DD and to work with the health-care team—including specialists, caregivers, and social service supports—in providing excellent patient care to persons with DD.

Course Objectives

At the conclusion of this course, participants can provide better patient care through an increased ability to:

- Apply knowledge of health issues common in this population across the lifespan
- Assess and treat chronic health conditions in patients new to your practice
- Manage psychotropic medications and monitor for adverse events
- Appropriately refer patients for assistive technology devices and gain hands-on experience with several devices to understand their utility
- Expand your “prescriptions” for promoting healthy lifestyles in patients with DD
- Increase cultural competency related to the DD community

Target Audience

This conference is intended for practitioners in the fields of Family Medicine, General Practice, Pediatrics, Psychiatry, Psychology and Allied Health.

Accreditation with Commendation

This activity has been planned and implemented in accordance with the Essential Areas and policies of the Accreditation Council for Continuing Medical Education through the joint sponsorship of Swedish Medical Center and The Division of Developmental Disabilities/DSHS. Swedish Medical Center is accredited by the ACCME to provide continuing medical education for physicians.

AMA PRA Category 1 Credits™

Swedish Medical Center designates this educational activity for a maximum of **7.0 AMA PRA Category 1 Credits™**. Physicians should only claim credit commensurate with the extent of their participation in the activity.

Agenda: Friday, March 23, 2007
